

Boneseed sites in Western Australia as of June 2008					(several sites have the same site number, this is due to multiple herbarium collections from one site)
Site #	Closest town	Location from herbarium sheet or as reported	Status as of June 2008	CONTACT	land tenure
1	Nabawa	No site data. PERTH herbarium specimen #416428	John Scott inspected in Aug 06, and searched w/o finding - assume no longer exists	Craig Robins (Geradlton DAF office) 9956-8505	
2	Toodyay	Perth-Toodyay road, near Toodyay, WA. "growing on roadside" PERTH specimen # 554014	Investigated by H Cherry and T Patterson in Sept 07, no plants found. Road expansion appears to have covered site.	Bethan Lloyd (Landcare Support Toodyay LCDC 9574-2452) contacted Lori Beech. Laurie Beech confirmed location on Perth Toodyay Road at Perth end of	Council or Main Roads right of way. A parking pull-in just before the bend - plants were found on opposite side of road.
3	Swan	Aboriginal land in Saunders St. Upper Swan (Henley Brook) and 2 adjacent private properties on Rookwood and Roberts Rds.	Many mature plants present. Infestation delimited by DEC in Sept 07. Formulating plan for control and community involvement/demonstration site on ALT land. Private land plants controlled Sept 07.	For ALT land: Paul Bowers (Indigenous Land Mgmt Facilitator) 9420-6320 or 0408 090 813 paul.bowers@csiro.au	ALT and residential
4	Darlington	Ryecroft Road, Darlington, WA. Plants in lateritic loam along roadverge.	see below		
4	Darlington	Infestation extends approx 500m from intersection Ryecroft and Leithdale Rds. In vacant lot on corner and in residential properties on Leithdale Rd, Ryecroft Rd, Lukin Rd, Alpik Rd and Hillcrest Rd. Also in Helena College property.	Plants found in 2 shire and 9 residential properties. All mature plants controlled or under notice in Sept 07.	Gemma French - Buschare Coord Mundaring Shire 9290-6685 or Toni Burbidge Environmental Officer Mundaring Shire 9290-6675	Residential and Mundaring Shire
5	Sawyers Valley	Forrest Street, Sawyers Valley on residential property and in adjacent Shire verge (ca. #90)	Two plants found - controlled on shire land and private landowner notified in Oct 2007	Toni Burbidge Environmental Officer Mundaring Shire 9290-6675	Residential and Mundaring Shire

not known if bonseed	Perth Hills	Serpentine National Park - exact location unknown. Discovered by birdwatchers.	Need to ensure boneseed - Ron now doubts that plant was boneseed. need to GPS site and make herbarium collection.	It was sighted by the Birds Australia Group and the contact for that is Ron Dibbens – (08)9439 1485. Will meet with Nola Withnell to investigate during flowering season.	DEC
