

White, yellow, red,
orange and pink,
it's all the same

- Lantana's a
weed.

Lantana

Free Australia from the weed Lantana

What you can do

- Treat all forms of Lantana as undesirable and remove from your property.
- Don't buy or sell Lantana, use safe alternative species (ask nurseries for advice).
- Remove Lantana from landscaping, public plantings and reserves.

Best practice for controlling lantana infestations

- Act quickly and prevent it spreading onto your property.
- Control small infestations first.
- Consider integrating control techniques by using mechanical, herbicide, biological control and fire with regular follow-up treatments.
