

State	NRM Region	National Lantana Priorities (2009-11) (not including research)
National - over-arching priorities (specific priorities are described for each region below).		* Refer to the National Priority Action Framework 2009-11 for an explanation of the national direction for the Lantana WoNS Program.
ACT	ACT	* Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
NSW	Border Rivers-Gwydir	* Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Central West	* Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Hawkesbury-Nepean	* Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m ² pixel scale for determination of local priority management areas.
	Hunter-Central Rivers	* Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m ² pixel scale for determination of local priority management areas.
	Lachlan	* Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Lower Murray Darling	* Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.

Murray	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
Murrumbidgee	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
Namoi	<ul style="list-style-type: none"> * Naturalised lantana may be found in the eastern area of this region. * Education and awareness required to encourage early detection, reporting and control of new infestations to halt western spread. * Ongoing enforcement of the ban on sale and distribution.
Northern Rivers	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
Southern Rivers	<ul style="list-style-type: none"> * Maintain and progress the Southern Lantana Containment Line to the southern boundary of Ulladulla, NSW. Control of all lantana south of the southern containment buffer zone, including ornamental plantings. * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via site nominations and strategic control at previously assessed priority sites. * Education and awareness including best management techniques and to encourage early detection, reporting and control of new infestations below the southern containment line and within the buffer zone. * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
Sydney Metro	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
Western	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.

NT	Northern Territory	<ul style="list-style-type: none"> * Control of all known naturalised infestations. * Education and awareness to encourage early detection, reporting and control of new infestations and the removal of garden plantings. * Support for community group initiatives. * Ongoing enforcement of the ban on sale and distribution.
Qld	Border Rivers Maranoa - Balonne	<ul style="list-style-type: none"> * Naturalised lantana may be found in the eastern area of this region. * Education and awareness required to encourage early detection, reporting and control of new infestations to halt western spread. * Ongoing enforcement of the ban on sale and distribution.
	Burdekin	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
	Burnett Mary	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
	Cape York	<ul style="list-style-type: none"> * Defence of the Northern Containment line and control of all known naturalised infestations. * Priority management regions - NPA, Portland Roads, Cape Weymouth, Lilyvale (near Lakefield NP) * Education and awareness to encourage early detection, reporting and control of new infestations and the removal of garden plantings. * Ongoing enforcement of the ban on sale and distribution.
	Condamine	<ul style="list-style-type: none"> * Naturalised lantana may be found in the eastern area of this region. * Education and awareness required to encourage early detection, reporting and control of new infestations to halt western spread. * Ongoing enforcement of the ban on sale and distribution.
	Desert Channels	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.

Fitzroy	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and stratetic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
Mackay Whitsunday	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and stratetic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
Northern Gulf	<ul style="list-style-type: none"> * Lantana infestations in eastern sections of this region * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and stratetic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
South East Queensland	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and stratetic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
South West Queensland	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
Southern Gulf	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
Torres Strait	<ul style="list-style-type: none"> * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution.

	Wet Tropics	<ul style="list-style-type: none"> * Implementation of the <i>Draft Plan to Protect Environmental Assets from Lantana</i> via nomination of sites and strategic control at previously assessed priority sites. * Education and awareness, including promotion of best practice management techniques, community redistribution of biocontrol agents and school education (eg. <i>Weed Warriors</i> programs). * Ongoing enforcement of the ban on sale and distribution. * Note: free availability of remote sensing mapping at 100m2 pixel scale for determination of local priority management areas.
SA	Adelaide and Mount Lofty Ranges	<ul style="list-style-type: none"> * Ongoing surveillance and management (where required) of the previously controlled infestation within the Burnside City Area. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Alinytjara Wilurara	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Eyre Peninsula	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Kangaroo Island	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Northern and Yorke	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	South Australian Arid Lands	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	South Australian Murray Darling Basin	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	South East	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
Tas	North	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.

	North West (Cradle Coast)	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	South	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
Vic	Corangamite	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	East Gippsland	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Glenelg Hopkins	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Goulburn Broken	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Mallee	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	North Central	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	North East	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Port Phillip and Westernport	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	West Gippsland	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.

	Wimmera	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
WA	Avon	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Northern Agricultural	<ul style="list-style-type: none"> * Control of all known naturalised infestations around the Geraldton area. * Education and awareness to encourage early detection, reporting and control of new infestations and the removal of garden plantings (particularly pink flowering varieties). * Support for community group initiatives. * Ongoing enforcement of the ban on sale and distribution.
	Rangelands	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	South Coast	<ul style="list-style-type: none"> * Control of all known naturalised infestations around the Denmark and Albany areas. * Education and awareness to encourage early detection, reporting and control of new infestations and the removal of garden plantings (particularly pink flowering varieties). * Support for community group initiatives. * Ongoing enforcement of the ban on sale and distribution.
	South West	<ul style="list-style-type: none"> * Naturalised lantana currently unknown in this region. * Education and awareness required to encourage early detection, reporting and control of new infestations. * Ongoing enforcement of the ban on sale and distribution.
	Swan	<ul style="list-style-type: none"> * Control of all known naturalised infestations around the Perth region. * Education and awareness to encourage early detection, reporting and control of new infestations and the removal of garden plantings (particularly pink flowering varieties). * Support for community group initiatives. * Ongoing enforcement of the ban on sale and distribution.
